Solar EPC

WHO WE ARE

Strategy & Vision

Rudra Prime Infra LLP is a professionally managed civil infrastructure and project execution firm delivering end-to-end solutions across civil construction, structural engineering, road & earthwork, solar EPC support, and skilled manpower deployment.

With hands-on expertise spanning industrial, commercial and infrastructure-scale projects across Gujarat and beyond, we combine technical precision with strict safety standards and on-time delivery — supported by a qualified team of engineers, coordinators and compliance professionals.

Rudra Prime Infra LLP is led by a qualified core team of civil engineers, project coordinators and site supervisors, with commercial operations headed by a Chartered Accountant — ensuring disciplined execution, transparent reporting and financial rigour on every project we undertake.

⚡ OUR FLAGSHIP SERVICE

Solar Power Project Work

PV module installation on a live EPC site

4

SOLAR EPC PROJECTS DELIVERED

₹4.18 Cr+

CUMULATIVE PROJECT VALUE

99+

SKILLED WORKFORCE ON CALL

End-to-end civil, foundation and installation scope for utility and commercial solar sites.

We handle the complete civil and installation scope for solar sites — from pile foundations for module structures and support-room civil works (inverter room, security room, boundary wall), to land levelling, RCC works and the actual installation of solar PV modules at the correct angle and orientation for maximum yield.

We also carry out solar lighting works and support cabling structure foundation work, built to each client's exact layout and specification — delivered by a crew experienced across multiple utility-scale EPC sites.

RCC foundation works supporting the same solar scope

What this covers

- ✓ Pile foundation & module structure installation
- ✓ Inverter room, security room & boundary wall civil works
- ✓ Land levelling, excavation & RCC works
- ✓ Solar lighting & cabling structure foundation work

BUILDING THE FOUNDATION

Civil & Earthwork

RCC civil pour in progress

Civil & Infrastructure

End-to-end civil and structural construction — deep foundations, RCC framing and finishing — for industrial, commercial and infrastructure clients, executed to strict engineering standards.

- ✓ Building & warehouse construction
- ✓ Boundary walls & civil rooms
- ✓ Pile capping & RCC works

Site earthwork & foundation boring equipment

Road & Earth Work

Road construction and earthwork for project sites and access roads — grading, levelling, excavation and backfilling — executed with our own fleet of earth-moving equipment.

- ✓ Grading, levelling & excavation
- ✓ Access road construction
- ✓ Own fleet of earth-moving equipment

POWER & STRUCTURE

Electrical & Structural Steel

AC/DC switchgear panel wiring

Electrical & Cabling Work

Cabling structure foundation work, trenching and cable-route preparation across solar and industrial sites, along with AC & DC panel work and control wiring.

- ✓ Cable trenching & route prep
- ✓ AC/DC panel wiring & termination
- ✓ Control wiring & electrical fit-out

Structural steel frame erection

Structural Steel Fabrication & Erection

Fabrication and erection of structural steel — sheds, support structures and module-mounting frames — with our own welding, grinding and cutting equipment.

- ✓ Shed & support structure fabrication
- ✓ Module-mounting frame erection
- ✓ Own welding & steel-cutting fleet

EXTENDED CAPABILITIES

Wind, Land & Manpower

Wind Power Project Work

Extending our civil and EPC-support expertise into wind energy infrastructure — foundation, civil and balance-of-plant works for wind power project sites.

- ✓ Foundation & civil works
- ✓ Balance-of-plant support

Solar Land & Resort Development

Land preparation and development for solar farm sites as well as resort and hospitality land development — site clearing, levelling, access-road development and civil groundwork.

- ✓ Site clearing & levelling
- ✓ Access-road development
- ✓ Civil groundwork

Man Power Supply

Skilled, semi-skilled and unskilled manpower on a contract basis — engineers, supervisors, operators, electricians, welders, drivers and general labour — with complete statutory compliance (PF, ESIC, health & safety, PPE).

- ✓ 99+ workforce on call
- ✓ Full statutory compliance
- ✓ Deployed across all our sites

TRACK RECORD

Work Experience

Our clients, like our people, are our most valued partners. We deliver every project — large or small — with the same commitment to quality, safety and on-time execution.

CLIENT	TYPE OF WORK	CONTRACT VALUE
Sterling & Wilson Renewable Energy Ltd	Piling, ICR & MMS Module	₹ 69.8 Lakhs
Prozeal Green Energy Ltd — 5.0 MW I&C Project (Sumitomo India Ltd)	Installation & Commissioning	₹ 87.6 Lakhs
JSW, Khavda (Kutch)	MCR, Pile Capping, AC & DC Works	₹ 44.5 Lakhs
Prozeal Green Energy Ltd — 12 MW I&C Project (Vivan Steel & Alloys Pvt Ltd)	Installation & Commissioning	₹ 2.16 Crore (Running)

Additional government infrastructure projects are currently running.

SAFETY FIRST

HSE & Quality Policy

Rudra Prime Infra LLP is committed to providing a safe and healthy workplace for all its employees, and to ensuring that every operation protects the environment and the community at large.

Our Safety Philosophy

- ✓ All accidents are preventable
- ✓ No task justifies risk of injury or environmental harm
- ✓ Full compliance with HSE legislation & site protocols
- ✓ Hazards & pollution controlled before they cause harm
- ✓ Every employee trained to maintain HSE standards
- ✓ HSE integrated into every stage of execution

Safety Principles

- ✓ Human life and well-being above all else
- ✓ All incidents & workplace illnesses are preventable
- ✓ Personally accountable, collectively responsible
- ✓ Safety first advances quality, cost & schedule goals
